

Ken Nolden, Producer Candidate

Ken Nolden grew up dairy farming alongside his parents just outside Prairie du Sac, WI. His passion for agriculture led to renting a dairy farm near North Freedom in 1993. After 3 years of establishing a foothold through that rental, he was able to purchase his present home farm near Rock Springs.

Ken has grown the operation to include 520 acres, 150 head of dairy cows, and 140 head of youngstock. Ken works alongside his family daily and enjoys motorcycling, playing soccer, and spending time with his granddaughters.

Ken currently serves as a board member on the Sauk County Soil & Water Improvement Group, Sauk County Farm Bureau, and Scenic Central Milk Producers. He is a past supervisor and board chairman for the Town of Excelsior and a former director at Co-op Country Partners. These roles have all contributed to Ken's knowledge of fiscal management, strategic planning, and working collaboratively with other directors, members, and employees to further the vision of the organization.

Ken has been a Consumers Cooperative member for decades. He believes in the cooperative model and, as a first-time candidate, hopes to utilize his knowledge of agriculture and business to help Consumers thrive long into the future.
