

Tim Evert, Producer Candidate

After graduating from Sauk Prairie High School in 1982, Tim attended the UW Farm and Industry Short Course. In 1985, he married his wife, Lisa, and together they have raised three children and are now proud grandparents to five grandchildren.

Tim and Lisa are members of United Dreams Dairy LLC, a multi-family, multi-generation 850 cow dairy alongside their partners, Rick and Ronda Lehman, Jeff Evert and Michael Niemann while also serving as President of Evert Farms Incorporated; Evert Farms raises replacement heifers, houses dry cows and grows corn and alfalfa to support the dairy herd.

Over the years, Tim has served in a variety of leadership roles within agriculture and the local community, including past President of the Sauk County Dairy Promotion Board and an active member of the Sauk Prairie FFA Alumni. He is also a life-time member of St. John Lutheran Church in Leland, where he served on the church council for 12 years, including 11 years as chair.

Tim's board experience began in 2010, serving on the Badgerland Financial Board, where he held the role of vice chair and chaired the Governance Committee, and was selected for the merger steering committee that aided the management team through the formation of Compeer Financial. He later served on the Compeer Financial Board from 2017 to 2023, contributing to governance and business risk committees, earning his Farm Credit Council Premier Governance Series Certified Director designation, and being selected as a delegate to the AgriBank Board.

Most recently, Tim serves as Chairman of the Sauk County Dairy Breakfast Committee and was elected Vice Chair of the Sauk City Fire Commission.

As a lifelong member of Consumers Cooperative, Tim understands that the cooperative has been an important partner in farming operations throughout the community. He is interested in serving on the Consumers board to give back to an organization that has played a meaningful role in his agricultural career and strongly believes in the cooperative model and the importance of maintaining a member-focused approach.

With his background in agriculture and extensive boardroom experience, he can contribute to thoughtful decision-making and looks forward to working with fellow board members to help position the cooperative for long-term strength and sustainability for future generations.
